REPUBLIC OF GHANA

**TO WHOM IT MAY CONCERN**

The Ministry of Health presents its compliments to you.

2. This Ministry support the establishment of the hospital by Krankenhaus Ghana as Government is keen on improving the healthcare infrastructure needs of the country in order to bring health services closer to its populace. Due to the current infrastructure deficit in Ghana's health sector, we consider this project necessary as it would accelerate progress made so far and also address challenges with child health and development in Ghana.
3. We recognize the importance of private sector and not-for-profit organization investments in health and their contribution to the realization of Government's policy to construct 111 health facilities across the country; which emphasizes the need for bridging the health sector infrastructure gap.
4. We are grateful for any donations to facilitate the setting up of this facility.
5. Thank you.
